1.1 Basis of Preparation

The financial statements are prepared in accordance with historical cost accounting convention and International Financial Reporting Standards (IFRS), the accounting policies of Peace and Liberation Party (PLP) are set out below are consistent in all material respects unless otherwise stated.

1.2 Significant Accounting Judgments and Estimates

Use of Estimates: The preparation of the financial statements requires the National Executives of Peace and Liberation Party (PLP) to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The determination of estimates requires the exercise of judgment based on various assumptions and other factors such as historical experience, current and expected economic conditions, and in some cases actuarial techniques. Actual results could differ from those estimates.

The more significant areas requiring the use of management estimates and assumptions relate to depreciation, depletion and amortization calculations, estimates of asset impairments, post-employment, post-retirement and other employee benefit liabilities, the fair value and accounting treatment of financial instruments.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The judgments that the national executive have applied in the application of accounting policies, and the estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

1.3 Foreign Currency Translations
