1.0 Significant Accounting Policies & Basis of Preparation

1.1 Basis of Preparation

The financial statements are prepared in accordance with historical cost accounting convention and International Financial Reporting Standards (IFRS), the accounting policies of People's Movement for Democratic Change (PMDC) are set out below are consistent in all material respects unless otherwise stated.

1.2 Significant Accounting Judgments and Estimates

Use of Estimates: The preparation of the financial statements requires the National Executives of People's Movement for Democratic Change (PMDC) to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The determination of estimates requires the exercise of judgment based on various assumptions and other factors such as historical experience, current and expected economic conditions, and in some cases actuarial techniques. Actual results could differ from those estimates.

The more significant areas requiring the use of management estimates and assumptions relate to depreciation, depletion and amortization calculations, estimates of asset impairments, post-employment, post-retirement and other employee benefit liabilities, the fair value and accounting treatment of financial instruments.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The judgments that the national executive have applied in the application of accounting policies, and the estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

1.3 Foreign Currency Translations

Functional currency

Transactions and account balances indicated in the financial statements are measured using the currency of the primary economic environment in which People's Movement for Democratic Change (PMDC) operates (the functional currency). Translation and Balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. The amount of the impairment is the difference between the assets carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The impairment is recognized in the statement of comprehensive income.

1.5 Cash and Cash Equivalents

Cash and cash equivalents are defined as cash at hand, demand deposits and short-term, highly liquid investments which are readily convertible to known amounts of cash and subject to insignificant risk of changes in value. They are measured at cost which is deemed to be fair value as they have a short-term maturity. Bank overdraft is shown as current liabilities which is part of the statement of financial position.

Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement in the year the asset is derecognised.

1.7 Depreciation
